

**Near the banks of Old Man  
River, rising grandly there,  
stand the halls of Shaw forever  
gleaming bright and fair. See  
her glory, sing to praise her.  
Shaw will know we care. Brave  
her men proud to remember  
days of honor there.**

## Spanish Honor Society

The Spanish Honor Society provides over \$160,000 in awards to its chapters and members. The most prestigious awards are college scholarships to 60 high school seniors and travel awards to 24 high school juniors from around the country (Bertie Green Travel Awards). The Bertie Green Travel Award destinations have included summer trips to Argentina, Peru, Mexico, and Spain. Each chapter can only nominate one student for each of those awards. There are also several awards for chapters and sponsors each year.

## **Science National Honor Society**

America has been honoring brilliant students through honor societies since 1921. Educators began to notice the need for subject specific honor societies in America's high schools in the 1980's. Since then, new honor societies have sprung up to recognize and encourage students in such areas as English, Art, French, and Spanish. Until now, there has been no national honor society for Science. In this era of rapidly changing technologies and scientific advancement, it is time to encourage and recognize high school students in the Sciences.

Moderator: Mrs. Celina Crossland

## **Mu Alpha Theta**

Mu Alpha Theta (MA $\Theta$ ) is the United States mathematics honor society for high school and two-year college students. In June 2015, the organization served over 108,000 student members in over 2200 chapters in the US and in 20 foreign countries. Its main goals are to inspire keen interest in mathematics, develop strong scholarship in the subject, and promote the enjoyment of mathematics in high school and two year college students. The name is a rough transliteration of math into Greek (Mu Alpha Theta).

### **Membership, High School Chapter:**

-  Members must be high school students in grades 9 through 12.
-  Members must be registered with Mu Alpha Theta at the school at which their permanent records reside.
-  Members must have completed the equivalent of two years of college preparatory mathematics, including algebra and/or geometry, and have completed or are enrolled in a third year of college preparatory mathematics.
-  On the 4-point grading scale, members must have at least a 3.0 math grade point average.

Moderator: Mr. Charles Gaines

## **National Honor Society**

The National Honor Society (NHS) is the nation's premier organization established to recognize outstanding high school students. More than just an honor roll, NHS serves to recognize those students who have demonstrated excellence in the areas of scholarship, service, leadership, and character. These characteristics have been associated with membership in the organization since its beginning in 1921.

Today, it is estimated that more than one million students participate in NHS activities. NHS chapters are found in all 50 states, the District of Columbia, Puerto Rico, many U.S. territories, and Canada. Chapter membership not only recognizes students for their accomplishments, but challenges them to develop further through active involvement in school activities and community service.
